Genaro Basulto

5000 Forbes Ave., Pittsburgh, PA 15213 | gbasulto@andrew.cmu.edu
Website

Research Interests

My research is in industrial organization and applied microeconomics, with a focus on digital markets and competition policy. I aim to combine micro economic theory, advanced computational methods and data to study how platform design, ranking algorithms, search frictions, and vertical integration shape firm behavior, market competition, and consumer welfare.

Education

Carnegie Mellon University, Pittsburgh, PA — Expected 2027
Ph.D. in Economics
Committee: ***Aniko Öry (Advisor/Chair)****, Anh Nguyen, Maryam Saeedi, Alan Montgomery, Minkyung Kim (external reader)*

Carnegie Mellon University, Pittsburgh, PA — 2024
M.S. in Economics

Centro de Investigación y Docencia Económicas (CIDE), Mexico City, Mexico — 2022
M.S. in Economics

Instituto Politécnico Nacional, Mexico City, Mexico — 2020
B.S. in Engineering Mathematics

Job Market Paper

Algorithmic Ranking and Delivery Foreclosure in Retail Platforms: Evidence from Amazon and Mercado Libre
Latest version

Studies in Nonlinear Dynamics & Econometrics, 2026. doi

The Dynamics of Bargaining Power in a Principal-Agent Model (with Sonia Di Giannatale and Itza Tlaloc Quetzalcoatl Curiel-Cabral).
Mathematical Social Sciences, 138, Article 102452, 2025. doi

Working Papers

Keynesian Search in Stochastic Overlapping Generations Models (with Parand Akbari, Eungsik Kim, and Stephen Spear).
Revise & Resubmit, *American Economic Journal: Macroeconomics*. Latest version

Strategic Pricing and Adoption Dynamics for Hydrogen Mobility Technologies (with Alan Montgomery and Aniko Ory). Latest version

Platforms as Search Technologies: Seller Selection and Price Spillovers (with Aniko Ory). EARIE 2026 slides

Determinate Indeterminacy: Keynesian Search with Imperfect Competition Preprint

Getting Sales from Rankings and Other Observable Information on Platform Markets

Other Writings

Data on Internet Platforms (with Aniko Ory).
CMU Center for Intelligent Business, 2024. Read.

The Globalizability of Temporal Discounting (with K. Ruggeri and others).
Nature Human Behaviour, 6(10), 1386–1397, 2022. doi

Research Experience

Carnegie Mellon University
Research Project with Air Liquide 2024–2026
Research Assistant for Stephen Spear 2023–2025
Research Assistant for Anh Nguyen 2023
CIDE
Research Assistant for Sonia Di Giannatale 2022

Fellowships and Awards

PNC Presidential Fellowship Award 2026
Distributed Ledgers Fellowship, Center for Intelligent Business, CMU 2024
Air Liquide Research Grant 2024–2026
William Larimer Mellon Fellowship 2022–2026
CONACYT National Graduate Fellowship, Mexico 2020–2022

Teaching Experience

Carnegie Mellon University
Instructor, Principles of Microeconomics 2026
Teaching Assistant, Advanced Computational Methods (PhD) 2026
Teaching Assistant, Data Visualization (MBA) 2026
Teaching Assistant, Regression Analysis (Undergrad) 2024
Teaching Assistant, Intermediate Microeconomics (Undergrad) 2023–2026
Teaching Assistant, Statistical Decision Making (MBA) 2023, 2024
Teaching Assistant, Managerial Economics (MBA) 2023, 2026
Teaching Assistant, Microeconomics I (PhD) 2023, 2024
Centro de Investigación y Docencia Económicas
Teaching Assistant, Dynamic Methods for Economics (Masters) 2021
Teaching Assistant, Microeconomics I (Masters) 2021

Selected Presentations

CMU Energy Week, Economic Theory Seminar at the University of Pittsburgh, Centro de Investigación y Docencia Económicas (scheduled) 2026

Marvin-Goodfriend Seminar Series at Carnegie Mellon University, XXIV SAET Conference 2025

Student Organizer, Conference on AI and Human Decisions 2026

Referee Work

Quantitative Marketing and Economics; *Review of Development Economics* 2026

Teaching Development

Future Faculty Program, Carnegie Mellon University In progress
Eberly Center for Teaching Excellence & Educational Innovation. Includes individual teaching consultations, classroom observation and feedback, and development of a teaching statement.

Personal Information

Nationality: Mexican
Languages: Spanish (Native), English (Proficient)
Computer Languages: Python *(JAX, Pandas, Scipy, statsmodels)*, Julia, R, Matlab.
